June 17, 2021

To the Honorable Mayor and Members of the City Council, City of Commerce City Residents, State of Colorado, and the Financial Community:

We are pleased to transmit the Comprehensive Annual Financial Report (CAFR) of the City of Commerce City for the year ended December 31, 2020. This submittal is in accordance with Colorado State Statutes and the City of Commerce City Charter provisions. This report of the financial condition of the City as of December 31, 2020, and the activity which brought about that condition meets the City Charter requirements as well as provides full financial disclosure in accordance with generally accepted accounting principles (GAAP).

The Finance Department prepared this report in conformance with standards of the Governmental Accounting Standards Board, the American Institute of Certified Public Accountants, the Government Finance Officers Association, and the Colorado State Auditor. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City's management.

The purpose of the CAFR is to provide citizens, investors, grantor agencies, and other interested parties with reliable information concerning the financial condition of the City. The City management believes the data as presented is accurate in all material respects. The data is presented in a manner designed to set forth fairly the financial position and results of City operations as measured by the financial activity of its various funds. Also, all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

This report has been prepared following the guidelines recommended by the Government Finance Officers Association of the United States and Canada. The City was awarded the Certificate of Achievement for Excellence in Financial Reporting for its 2019 report and this report continues the same high standards of public financial reporting.

State law requires that the financial statements of the City of Commerce City be audited by independent certified public accountants selected by the City Council. The independent auditing firm of Eide Bailly LLP, whose report is included herein, has audited the basic financial statements and related notes.

GAAP requires that the City's management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a "Management's Discussion and Analysis" (MD&A). This transmittal letter should be read in conjunction with MD&A.

REPORTING ENTITY DEFINITION

The financial reporting entity, the City, includes all the funds of the primary government as well as all of its component units. Additional financial information concerning the component units may be obtained through the Finance Department of the City of Commerce City, Colorado. The City reports six component units as follows:

Blended Component Units

- Commerce City Northern Infrastructure General Improvement District
- Commerce City E-470 Commercial Area General Improvement District
- Commerce City E-470 Residential Area General Improvement District
- Urban Renewal Authority

Discretely Presented Component Units

- Quality Community Foundation
- Commerce City Housing Authority

PROFILE OF THE CITY

The City of Commerce City is located on 36.13 square miles in Adams County immediately northeast of Denver and west of the Denver International Airport. The City is a highly industrialized municipality of 60,392 residents.

Commerce City became a home rule city in 1970 and is governed by a Mayor elected at-large and eight City Council members, four elected at-large and four by ward. The City Charter provides for a Council/Manager form of government.

The City is supplied with water by the South Adams County Water and Sanitation District, which also provides sanitation service to city residents. The South Adams County Fire Protection District provides fire protection. Adams County School District No. 14 provides public education to the south portion of the City, School District 27J serves the north portion of the City.

Interstate Highways 76 and 270; U.S. Highways 6, 85, and 265; State Highways 44 and 224; and the E-470 toll road serve the City. Rail transportation is furnished by all major railroads serving the Denver metropolitan area. Air service is available from the Denver International Airport, which is located adjacent to Commerce City on its east side. The Regional Transportation District provides local bus service.

ECONOMIC CONDITION AND OUTLOOK

Commerce City economy held its own throughout a very difficult year, despite the Covid-19 pandemic challenges experienced in 2020. During 2020, the City experienced decreased employment, decreased average weekly wages, increased labor force growth, and increased unemployment, but also experienced increased existing home sales, increased home prices, and increased residential and commercial permitting activity. Existing local business activity consists, to a large extent, of industrial enterprises, which continue to contribute substantially to the City's tax base. Some of the major businesses located in the City include United Parcel Service, FedEx Ground, Shamrock Foods, FedEx Freight, Inc., Q3 Contracting, Inc., Liberty Oilfield Services, LLC., Suncor Energy USA, Inc., Old Dominion Freight Lines, Douglass Colony Roofing, and Walmart Stores, Inc.

Maintenance and expansion of the City's infrastructure is a priority of the City. To address this priority, the City prepares a five-year capital improvement and preservation plan as part of each annual budget process that provides the framework for developing and maintaining infrastructure to meet current and future needs. This plan is crucial to the long-term financial condition of the City because of the need to provide the necessary public infrastructure and services to the new growth areas while maintaining the infrastructure and services in the historical part of the City.

FINANCIAL MANAGEMENT

Internal Control Structure

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and, (2) the valuation of costs and benefits requires estimates and judgments by management.

Financial Policies

The budget is the plan by which financial policy is made, implemented, and controlled. The City Charter, State Constitution, and state laws provide the basic legal requirements and time lines for the process. Council goals, ordinances, and resolutions provide additional direction that respond to the needs and desires of the community.

The City has adopted financial policies for the following topics:

- Budget
- Revenue
- Expenditure
- Reserves
- Cash management and investments
- Risk management

These policies serve as the foundation for the City's financial operations.

Legislative Development

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, (often referred to as TABOR) which has several limitations including revenue raising, spending abilities, and other specific requirements of state and local governments. The amendment is complex and subject to judicial interpretation. The City believes it is in compliance with the requirements of the amendment. However, the City has made certain interpretations of the amendment's language in order to determine its compliance.

Budgetary Controls

The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. The City adopts an annual appropriated operating budget for the General Fund, certain Special Revenue Funds, the Debt Service Fund, most capital projects funds, all proprietary funds, and certain pension trust funds.

The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level.

Awards and Acknowledgements

As demonstrated by the statements and schedules included in the financial and required supplemental information sections of this report, the City continues meeting its responsibility for sound financial management.

One objective measure of the quality of the City's financial management is the City's receipt of the annual GFOA Certificate of Achievement for Excellence in Financial Reporting. The 2019 Certificate is the 33rd consecutive such annual award received by the City. We believe that this 2020 CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

We wish to thank the City Council for providing the resources necessary to produce this CAFR. It takes a significant amount of staff time to prepare the financial statements, notes, and statistical information necessary for this report.

Respectfully submitted,

Rigery Timbuling

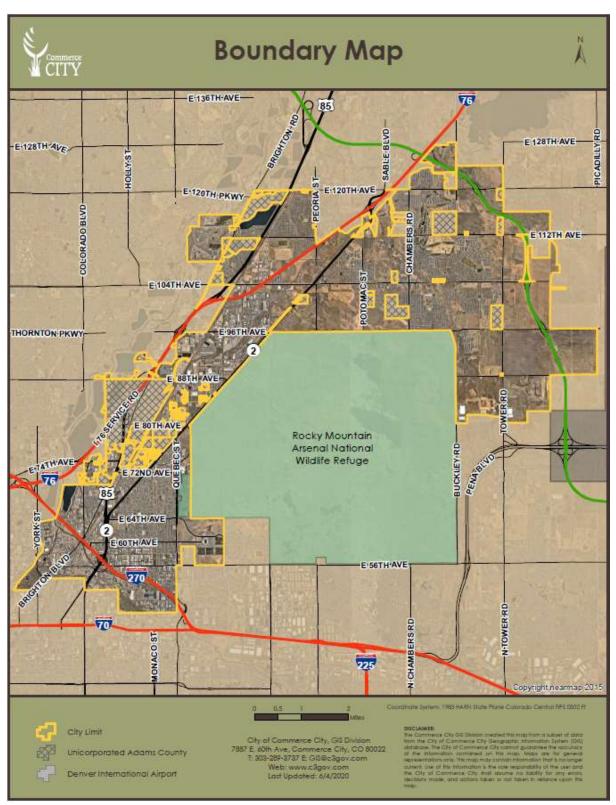

Roger Tinklenberg
City Manager

Sheryl L. Carstens Director of Finance

City of Commerce City Colorado

For its Comprehensive Annual Financial Report For the Fiscal Year Ended

December 31, 2019

Christopher P. Morrill

Executive Director/CEO

Independent Auditor's Report

To the Honorable Mayor, City Council, and City Manager City of Commerce City, Colorado

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Commerce City, Colorado as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Commerce City, Colorado, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Restatement

As described in Note 4-D to the financial statements, the City determined that there were several items that resulted in a restatement to previously issued financial statements. After adopting GASB Statement No. 84 *Fiduciary Activities*, the City sponsored Police Pension Plan Fund was no longer included in the financial statements as a fiduciary fund and the cash balance previously in the fund was moved to the General Fund. Additionally, under this new GASB statement, the City's School Facilities Fee Fund was reclassified from an agency fund to a custodial fund and the outstanding liabilities were reclassified to net position within the fund. Lastly, the Urban Renewal Fund recognized revenue from an agreement over a multi-year span when the revenue should have been recorded in a prior year.

These changes resulted in a restatement of prior period fund balance and net position. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 15 through 26, and the budgetary comparison information on pages 73 through 74, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Commerce City's basic financial statements. The introductory section, supplemental information as identified in the table contents, Local Highway Finance Report, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements.

The supplemental information as identified in the table contents and the Local Highway Finance Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information as identified in the table contents and the Local Highway Finance Report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2021 on our consideration of the City of Commerce City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Commerce City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Commerce City's internal control over financial reporting and compliance.

Denver, Colorado June 17, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the comprehensive annual financial report for the City of Commerce City, Colorado (the City), the City's management is pleased to provide this narrative discussion and analysis of the City's financial activities for the calendar year ended December 31, 2020. The City's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

2020 FINANCIAL HIGHLIGHTS

The City's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$370,010,324 (total net position) for the calendar year reported.

- Total net position is comprised of the following:
 - (1) Net investment in capital assets of \$183,637,864 include property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net position of \$50,710,012 is restricted by constraints imposed from outside the City such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net position of \$135,662,449 represent the portion available to maintain the City's continuing obligations to citizens and creditors.
- The City's governmental funds reported total ending fund balance of \$178,482,647. This compares to the prior year ending fund balance of \$170,196,857 showing an increase of \$8,285,790 during the current year.
- At year end, the General Fund's unassigned fund balance was \$62,168,516, which represents 86% of total General Fund expenditures and is \$7,069,474 higher than the prior year ending fund balance.
- Overall, the City continues to maintain a strong financial position.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management Discussion and Analysis document introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The City also includes in this report additional information to supplement the basic financial statements.

The City's component units are presented either as "blended" or "discretely presented." If blended, it is reported as if it were a fund of the City throughout the year. It is included at both the government-wide and fund financial reporting levels. The City has the following blended component units:

- Commerce City Northern Infrastructure General Improvement District (NIGID)
- Commerce City E-470 Commercial Area General Improvement District (ECAGID)
- Commerce City E-470 Residential Area General Improvement District (ERAGID)
- Urban Renewal Authority (URA)

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The City's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Position*. This is the government-wide statement of position presenting information that includes all of the City's total assets and deferred outflows and total liabilities and deferred inflows, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City as a whole is improving or declining. Evaluation of the overall health of the City would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this statement and report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net position changed during the current calendar year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinguish governmental activities of the City principally supported by taxes from business-type activities intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, human resources, community development, public safety, public works, and parks and recreation. Business-type activities include the solid waste management fund. The government-wide financial statements are presented on pages 27 and 28 of this report.

FUND FINANCIAL STATEMENTS

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The City has three kinds of funds:

- 1. Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.
 - Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives. The basic governmental fund financial statements are presented on pages 29 to 32 of this report. Individual fund information for nonmajor governmental funds is found in combining statements in a later section of this report.
- 2. Proprietary funds are reported in the fund financial statements and generally report services for which the City charges customers a fee. The City's proprietary funds are classified as enterprise funds and internal service funds. The enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. The internal service funds are reported as part of the governmental activities at the government-wide financial reporting level. The basic proprietary fund financial statements are presented on pages 33 to 36 of this report.
- 3. *Fiduciary funds* include employee pension and retirement funds held in trust and an agency fund used to hold resources of school impact fees from developers that school districts will use. These statements are found on pages 37 and 38.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the basic financial statements begin on page 41 of this report.

REQUIRED SUPPLEMENTARY INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's budget presentations. Budgetary comparison schedules are included as "required supplementary information" for the general fund and the major Urban Renewal Authority Fund. Budgetary comparison schedules for all other governmental funds can be found in the supplementary information section of this report. These schedules demonstrate compliance with the City's adopted and final revised budget. Required supplementary information can be found on pages 73 to 75 of this report.

SUPPLEMENTARY INFORMATION

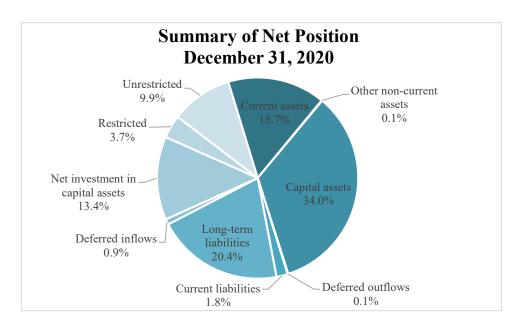

As discussed, the City reports major funds in the basic financial statements. Comparative information for major funds and combining and individual statements and schedules for nonmajor funds are presented in the supplementary information section of this report beginning on page 77.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The City's net position at year-end is \$370,010,324. The table below provides a summary of the City's net position.

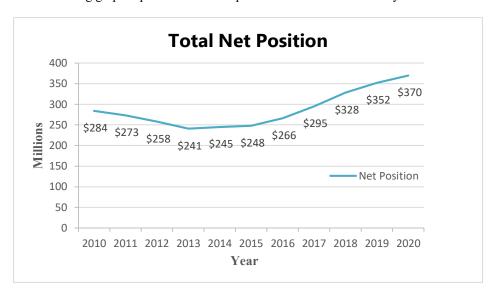

Summary of Net Position

	Governmental Activities		Business-ty	pe Activities	Total		
		(Restated)				(Restated)	
	2020	2019	2020	2019	2020	2019	
Assets							
Current assets	\$214,021,847	\$203,050,442	\$2,203,697	\$2,109,977	\$216,225,544	\$205,160,419

The following graph reports the total net position balances from fiscal year 2010 – 2020

The City continues to maintain a high current ratio, excluding the deferred inflows and outflows of resources. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio for governmental activities is 8.7 to 1 as compared to 9.1 to 1 at December 31, 2019. For business-type activities, the current liabilities and current assets have been transferred to government activities. The total current ratio was 0 to 1 at December 31, 2020.

2020 vs 2019 Net Position

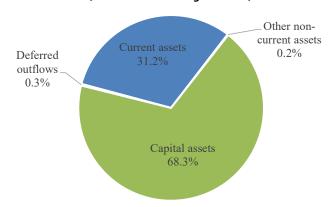

The City reported positive balances in net position for governmental activities and business-type activities. During fiscal year 2020, net position increased \$17,861,863 for governmental activities. For business-type activities, net position increased \$93,720. The City's overall financial position increased during the year 2020 by \$17,955,579.

Note that 68.3% of the governmental activities' total assets are tied up in capital assets (with 79.8% of the capital assets cost being depreciable). The City uses these capital assets to provide services to its citizens. Combining governmental activities with business type activities, the City has invested 68.1% of its total assets in capital assets, as presented in the Statement of Net Position.

Governmental Activities

(Assets as a Percentage of Total)

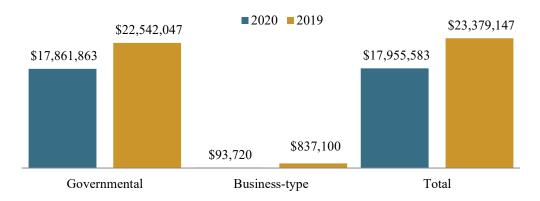

The following table provides a summary of the City's changes in net position:

Summary of Changes in Net Position

	Governmental Activities		Business-ty	e Activities	Total

Change in Net Position

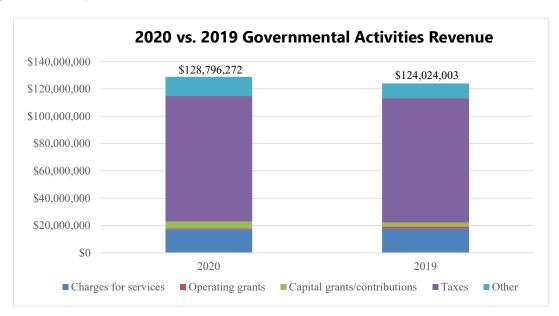

GOVERNMENTAL ACTIVITY REVENUES

The City is heavily reliant on sales and use taxes to support governmental operations. City taxes provide 71.4% of total revenue, with sales and use taxes providing 77.9% of the City's total taxes revenues as compared to 77.5% in calendar year 2019. Note that program revenues covered 20.4% of governmental operating expenses as compared to 21.7% in calendar year 2019.

This means that the government's taxpayers and the City's other general revenues fund 82.3% of the governmental activities,

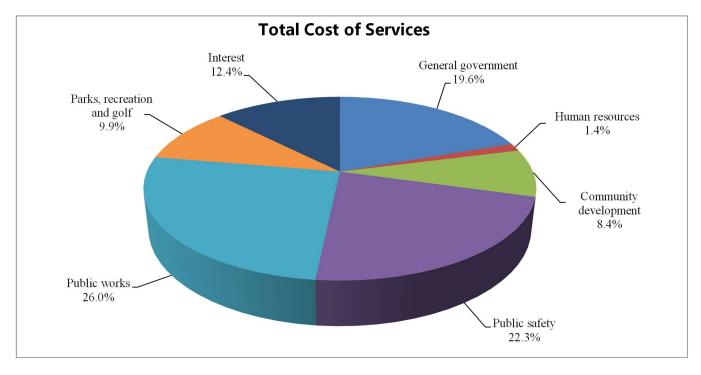

primarily from sales and use taxes. As a result, the general economy and the success of local businesses have a major impact on the City's revenue streams.

GOVERNMENTAL ACTIVITY EXPENSES

The following table presents the cost of each of the City's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden that was placed on the City's taxpayers by each of these functions.

	Governmental Activities					
		Total Cost of Services	Percentage of Total		Net Cost of Services	Percentage of Total
General government	\$	21,183,351	18.9%	\$	(17,489,008)	19.6%
Human resouces		1,220,749	1.1%		(1,220,749)	1.4%
Community development		10,873,056	9.7%		(7,462,425)	8.4%
Public safety		21,790,833	19.4%		(19,950,310)	22.3%
Public works		33,034,515	29.5%		(23,181,014)	26.0%
Parks, recreation and golf		12,850,757	11.5%		(8,820,942)	9.9%
Interest		11,083,648	9.9%		(11,083,648)	12.4%
	\$	112,036,909	100.0%	\$	(89,208,096)	100.0%

The public works function is the highest cost function, primarily because of the City's growth in its infrastructure (e.g., roads and storm sewers), resulting in approximately \$33.0 million of expenses including annual depreciation expense. The City spent approximately \$21.8 million on public safety and \$22.2 million on general government services.

BUSINESS-TYPE ACTIVITIES

Solid Waste Management Fund – The business-type activity is the solid waste management fund. Tipping fees charged at the Republic Services landfill operation provide the revenues for this fund. The City receives 5% of the total amount of fees collected or assessed and has no "out-of-pocket" costs. These revenues are used only for transportation improvements and maintenance on streets and bridges in the area of the landfill. The 2020 fee revenues of \$1,145,910 decreased by \$132,434 or 10.4% from the 2019 revenues.

FUND ANALYSIS GOVERNMENTAL FUNDS

Governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$178,482,647 compared to the restated balance of \$170,741,861 at December 31, 2019. Of this year-end total, \$62,168,516 is unassigned indicating the availability for continuing City service delivery requirements.

Legally restricted fund balances are \$52,754,279. Included in this amount are \$17,561,856 for capital projects and \$2,919,662 for the money set aside to meet the Tax Payer Bill of Rights (TABOR) emergency reserve requirements.

Committed fund balance totals \$11,635,603. Included in this amount is \$8,174,942 for capital construction, \$3,437,827 for water rights, and \$22,834 for long-term receivables.

The total ending fund balances of governmental funds show an increase of \$7,740,783 or 4.5% from the beginning fund balance, largely due to decreased spending for capital construction projects.

MAJOR GOVERNMENTAL FUNDS

General Fund

- The General Fund is the City's primary operating fund and the largest source of day-to-day service delivery. The General Fund's fund balance increased by \$2,726,367 or 3.3% as compared to a 9.8% increase in calendar year 2019. The ending unassigned fund balance is considered adequate, representing the equivalent of 85.3% of annual expenditures compared to 80.6% at December 31, 2019. The City has updated its unassigned fund balance to include: Operating reserves of \$7,552,513 and Safeguards of \$13,280,040.
- In total, the City recognized 102% of the final revenue budget and under spent final expenditure budget for the general fund by \$10,341,236.Overall, 2020 revenues were \$2,848,257 or 2.9% higher and expenditures were \$4,110,959 or 6.0% higher than 2019 revenues and expenditures.
- Total tax revenues exceeded the final budget by \$2,555,456 and increased \$1,645,198 over 2019 actuals. The vast majority of this increase is found in sales and use taxes.
 - o Sales and use taxes exceeded budget expectations by \$2,118,528.
 - o Property taxes were \$207,405 below budget expectations.
 - o Highway users tax revenue was also below budget expectations, by \$393,991.
- Total licenses and permits revenue exceeded the final budget by \$784,718 and increased \$828,704 over 2019 actuals. This increase is largely driven by higher building permits and other revenues (which includes excavation permit revenue).
 - Building permits revenue exceeded budget expectations by \$365,061, due to continued growth in the City and conservative budgeting practices.
- Total charges for services revenue fell \$2,971,231 under the final budget and decreased \$4,199,805 from 2019 actuals. This is largely due to lower recreation/golf fees, which decreased by \$2,516,266 or 44.3% from the 2019 amount. This decrease is due to recreation center closures related to the Covid-19 pandemic and associated public health orders.
- Total miscellaneous revenue exceeded the final budget by \$1,432,748 and increased \$3,948,129 over 2019 actuals. This increase is due to Coronavirus Aid, Relief, and Economic Security (CARES) Act funding received in 2020. Without this funding, this revenue category would have been \$698,756 below the final budget.
 - o Investment earnings exceeded budget expectations by \$1,491,085. Generally accepted accounting principles require the City to report securities at the fair value even though they are purchased at or close to par. The City does not sell the securities it holds.
- Fines and forfeitures revenues were consistent with the prior year's revenues.

- Total general government expenditures increased by \$2,281,933 or 45.4% from the 2019 amount. Within the general government function, legal increased by \$35,021 or 3.6% due to increased personnel services costs. The city manager expenditures increased \$565,666 or 43.9% from 2019 largely due to the expenditure of CARES Act funds. Economic development increased by \$1,348,058 or 160.3% largely due to the expenditure of CARES Act funds.
- Community Development expenditures increased by \$134,728 or 3.3% from 2019, this increase was due to continued growth related needs, including increased funding for a Community Block Development Grant (CDBG) consolidated plan.
- Public safety expenditures increased \$2,547,965 or 13.0% from the 2019 amount. This increase is due to higher personnel costs due to the addition of several new positions, including an investigative technician, court marshals, and community service officers.
- Public works expenditures increased by \$4,570,698 or 46.4% from 2019. This increase is due to the refuse contract increase and the transfer of the parks maintenance division from parks, recreation, and golf to public works.
- Parks, recreation and golf expenditures decreased by \$5,384,115 or 34.6% from 2019, due to lower
 expenditures resulting from recreation center closures related to the Covid-19 pandemic and associated
 public health orders.
- Finance, Humans Resources, and Debt Services expenditures were consistent with the prior year's expenditures.

Capital Expenditures Fund

- This fund is used to fund major City capital projects. The county open space tax and the county transportation tax, plus intergovernmental revenue provided the majority of this fund's revenue. The fund also recognized \$21,440,356 of transfers from other funds, including \$16,336,001 from the General Fund, \$1,538,959 from the Impact Fees Fund, \$1,212,896 from the Conservation Trust Fund, \$500,000 from the CCBSD Fund, \$750,000 from the Information Technology Fund, and \$1,102,500 from the Solid Waste Management Fund.
- During the year, this fund incurred \$21,729,299 million in capital costs that included, but was not limited to, the following major projects:
 - Road Enhancement Projects (including 88th Avenue and 112th Avenue widening projects) \$9,795,228
 - Veterans memorial Park \$2,915,453
 - o RTD Station Improvements \$1,885,144
- This fund reports an ending fund balance of \$45,463,601 at December 31, 2020.

Northern Infrastructure GID Fund

- This fund is used to account for the construction of infrastructure improvements within the district, including debt service on these improvements. This fund recognized over \$7.0 million in property and \$0.5 million in specific ownership taxes.
- This fund also incurred debt service costs (principal and interest) of approximately \$5.6 million. At December 31, 2020, the fund reports fund balance of \$17,557,260, an increase of \$2,424,673 from December 31, 2019.

Urban Renewal Authority Fund

• The URA's significant asset is the property held for resale, with plans to sell the property held for resale with a cost of \$4.6 million. This fund recognized \$534,951 in property taxes as compared to \$419,179 in 2019. This fund expended \$6,756,775 and reports a fund balance of \$7,456,391 at December 31, 2020.

PROPRIETARY FUNDS

Proprietary fund statements share the same economic resources measurement focus as the government-wide statements, reporting both short-term and long-term information about financial status. The business-type activities analysis above discusses the City's enterprise fund.

CAPITAL ASSETS AND DEBT ADMINISTRATION CAPITAL ASSETS

The City's capital assets, net of accumulated depreciation, for governmental activities as of December 31, 2020, were \$467,937,011. The change in capital assets book value (net investment) increased by 0.3% for governmental activities (including the internal service funds). The City does not own any assets related to business-type activities. See Note 3-C for additional information about changes in capital assets during the calendar year and outstanding at the end of the year.

Canital Assets

The following table provides a summary of capital asset activity:

	Capital Assets			
	Governmental Activities			
	2020	2019		
Non-depreciable assets:				
Land	\$ 50,206,821	\$ 50,206,821		
Golf course	4,224,818	4,224,818		
Water rights	15,637,582	15,637,582		
Construction in progress	8,619,548	2,865,651		
Total non-depreciable assets	78,688,769	72,934,872		
Depreciable assets:				
Buildings	117,072,118	116,874,183		
Machinery, equipment, furniture, and intangibles	20,401,870	19,269,565		
Infrastructure	625,123,759	608,083,823		
Total depreciable assets	762,597,747	744,227,571		
Less accumulated depreciation	373,349,505	350,534,895		
Book value - depreciable assets	389,248,242	393,692,676		
Percentage depreciated	49%	47%		
Total book value	\$467,937,011	\$466,627,548		

The total capital outlay of \$21,729,299 includes various capitalized additions to governmental activities infrastructure capital assets of which \$19,111,824 include:

- Building \$197,935
- Machinery and equipment \$1,873,953
- Parks \$3,582,700
- Roads, pavement management and rehabilitation \$9,466,034
- Signage \$234,026
- Storm sewers \$1,421,756
- Street lights \$253,271
- Traffic signals \$1,949,043
- Trails \$133,106

The December 31, 2020 balances in governmental activities construction in progress relates to various road and facilities projects.

LONG-TERM DEBT

The City established the City of Commerce City Northern Infrastructure General Improvement District (GID) as a legally separate entity. Since the City Council serves as the Board of Directors for the GID, it is reported as a blended component unit. Therefore, the \$72,660,000 of general obligation debt of the GID is reported here as if it is the City's debt. In reality, the GID debt is not an obligation of the City and no City funds are used to retire the debt. The GID has its own property tax levy to generate the revenue necessary to retire its debt. The following table reports debt balances at December 31, 2020 and 2019, exclusive of deferred debt related items.

Long-Term Debt

	Government	tal Activities
	2020	2019
GID general obligation bond	\$ 72,660,000	\$ 74,980,000
Sales tax revenue bonds	160,710,000	164,350,000
Lease purchase agreement	562,786	803,310
Certificates of participation	30,459,574	31,567,845
Compensated absences	164,446	196,449
Total	\$264,556,806	\$271,897,604

See Note 3-G for additional information about the City's long-term debt.

ECONOMIC CONDITIONS AFFECTING THE CITY

Highlights from the City of Commerce City Economic Activity Report for April 2021, which largely contains 4th Quarter 2020 data, are listed below.

- Employment in Commerce City fell 2.6 percent between the third quarters of 2019 and 2020, declining by 847 workers during the period.
- The unemployment rate in Commerce City rose 5.1 percentage points to 7.7 percent between the fourth quarters of 2019 and 2020. The City's labor force rose 1.2 percent, rising by 374 people to 30,954 people working or looking for a job.
- The Conference Board's National Consumer Confidence Index decreased 24.3 percent over-the-year to 96.3 in the first quarter of 2021. Over-the-quarter, the national index rose 2.7 percent. The quarterly increase reflects a continuing rebound for the third quarter in a row following a sharp decline reported in April and May due to the Covid-19 pandemic. Consumers' assessment of current conditions and their short-term outlook improved at the end of the first quarter of 2021, but concerns of inflation in the short-term increased, most likely due to rising gas prices, which could cause spending intentions to decline in the coming months. Colorado is included in the Mountain Region Index and the area reported a 27.1 percent decrease in consumer confidence between the first quarters of 2020 and 2021.
- Single-family detached home sales in Commerce City increased by 8 between the fourth quarters of 2019 and 2020 to 298 homes sold, an increase of 2.8 percent. Single-family detached home prices in Commerce City rose 12.6 percent to \$420,794, an increase of \$47,010 between the fourth quarters of 2019 and 2020.
- Single-family attached home sales in Commerce City rose 29.7 percent between the fourth quarters of 2019 and 2020 to 48 homes sold, representing 11 additional sales over the period. The average price for a single-family attached home in Commerce City rose 5.9 percent over-the-year to \$301,048, an increase of \$16,878 between the fourth quarters of 2019 and 2020.

- Foreclosure filings fell across Metro Denver between the fourth quarters of 2019 and 2020, falling by 609 filings to 98, a decrease of 86.1 percent. The low filings result from the foreclosure moratorium in effect in Colorado due to the Covid-19 pandemic.
- The number of residential units permitted in Commerce City rose 183.3 percent between the first quarters of 2020 and 2021, rising from 174 permits to 493 units. Multi-family units permitted accounted for a majority of the increase, rising from 0 units in the first quarter of 2020 to 223 units permitted in the first quarter of 2021.

COMMERCE CITY ECONOMIC HEADLINES

- Denver-based Southwestern Property Corp. has started to develop Aspen Hills Apartments, a 180-unit multifamily community in the Reunion/North Range area of Commerce City. The project will consist of six, three-story residential buildings containing 90 one-bedroom apartments, 72 two-bedroom apartments, and 18 three-bedroom apartments.
- Becknell Industrial purchased about 170 acres of land in the Nexus at DIA industrial park in Commerce City and plans to develop a 1-million-square-foot distribution center that has been preleased by a national home improvement retailer. No timeline for construction has been given.
- Denver ranked as the third-hottest market for millennial homebuyers, according to LendingTree. The survey was based on LendingTree applications, which found that nearly 60 percent of all Denver-area homebuyers in 2020 were millennials with an average age of 31.25 and an average loan of \$354,433.
- The Denver-Aurora-Lakewood MSA ranked high in leading economic indicators in Brookings Institution's Metro Monitor 2021 report. The report looked at economic growth, prosperity, economic inclusion, racial inclusion, and geographic inclusion, ranking MSAs over 1 million people based on growth from 2009 to 2019. The Denver MSA ranked No. 6 in economic growth, No. 7 in economic inclusion, No. 10 in geographic inclusion, No. 12 in racial inclusion, and No. 14 in prosperity. The report also found that median earnings in Denver rose 22 percent during the period, the third-highest out of the 53 largest metros, but lagged in racial inclusion metrics, ranking No. 43 for the gap between the white and people of color employment rate.
- Colorado is the second-best state in the U.S. to retire in, according to a study by WalletHub. The report used 45 key indicators of retirement-friendliness. Colorado ranked No. 6 in life expectancy, No. 6 in death rate for population aged 65 and older, No. 10 for COVID-19 positive testing rate as of the week ending January 22, and No. 15 for elderly-friendly labor market.
- According to a new study by Spanning, Colorado has the fourth-most tech jobs per capita in the U.S., employing 123,040 tech workers who earn a median annual wage of \$94,880. The report used data from the U.S. Bureau of Labor Statistics and found that job growth in computer and math-related occupations has outpaced the national average since 2008.
- Colorado ranked No. 16 on U.S. News & World Report "Best States Rankings." The state ranked best in economy, ranking second, and ranked No. 5 in education, No. 10 in healthcare, No. 15 in infrastructure, and No. 23 in natural environment. The report noted that it weighted health care and education most heavily, followed by state economies, infrastructure, and the opportunity states offer their citizens.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the City of Commerce City's finances for all those interested in the City's finances and demonstrate the City's commitment to public accountability. If you have questions about this report or need additional information, please contact the City's Finance Department via email at finance@c3gov.com or call 303-289-3602.

City of Commerce City, Colorado Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities For the Year Ended December 31, 2020

Net Changes In Fund Balances - Total Governmental Funds				
Amounts reported for governmental activities in the government-wide statement of activities are different because:			s	7,740,783
Governmental funds report capital outlays as expenditures on the governmental fund type operating statement. However, in the government-wide statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeds capitalized capital outlay in				
the current period (exclusive of internal service funds depreciation).	Depreciation expense Capital outlay	\$ (22,286,964) 20,204,572		(2,082,392)
Developer contributed infrastructure and other contributions are reported as revenue on the government-wide statement of activities but not reported in the governmental funds.				2,807,659
Special assessment revenues in the government-wide statement of activities do not provide current financial resources and are not reported as revenues in the governmental fund operating statement.				
	Balance @ 12/31/19 Balance @ 12/31/20	\$ (16,653) 12,167		(4,486)
Other tax revenues in the government-wide statement of activities do not provide current financial resources and are not reported as revenues in the governmental fund operating statement.				(343,282)
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.				7,308,795
The internal service funds used by management to charge the costs of the operation and maintenance of the vehicle fleet, the buildings and the computer equipment to individual funds are not reported in the government-wide statement of activities on the government-wide statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated.				1,382,397
Accrued interest is reported in the government-wide statement of activities, but does not require the use of financial resources and therefore are not reported as reported as expenditures in governmental funds.				
	Balance @ 12/31/19 Balance @ 12/31/20	\$ 3,578,547 (3,491,222)		87,325
Compensated absences are reported in the government-wide statement of activities, but do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.				
	Balance @ 12/31/19 Balance @ 12/31/20	\$ 191,994 (158,754)		33,240
Amortization of bond premium and refunding loss are reported in the governmental fund's operating statement because these transactions require the use of current financial resources but are reported on the government-wide statement of net position.				981,843
Amortizations of bond insurance premium costs are reported in the governmental fund's operating statement because these transactions require the use of current financial resources but are reported on the government-wide statement of				
net position.	Balance @ 12/31/19 Balance @ 12/31/20	\$ 1,137,275 1,087,256		(50,019)
Elimination of transfers between governmental funds.				
	Transfers in Transfers out	\$ (31,509,336) 31,509,336		-
Transfers between governmental funds to fiduciary funds are classified as expenditures.	Expenditures Transfers out	\$ 51,360 (51,360)		-

NOTES TO THE BASIC FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the City conform to generally accepted accounting principles (GAAP) in the United States as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. These policies have been consistently applied in the preparation of the City's financial statements. The following is a summary of significant accounting policies. This summary is provided to assist the reader in evaluating the City's financial statements.

1-A. REPORTING ENTITY

Initially incorporated as Commerce Town in 1952, the City of Commerce City, Colorado, (the City) was incorporated as a Home Rule Municipality in 1970 and operates under a Council/Manager form of government. The City provides the following services as authorized by its charter: public safety (police), highways and streets, parks and recreation, public improvements, planning and zoning, and general administrative services.

The financial statements present the financial activities of the City government and its component units. The primary government of the City consists of all funds, departments, boards, and agencies that are not legally separate from the City. This entity includes the City's component units as described below.

Component units are legally separate entities for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes, or issues their debt.

The City's component units are presented either as "blended" or "discretely presented." The blended component units are reported as such, because the City substantively shares the same governing body with its four blended component units. Additionally, there is a financial benefit or burden between the City and these four blended component units and the City has operational responsibility for these units. Each blended component unit is presented as if it was a fund of the City, included at both the government-wide and fund financial reporting levels.

Each discretely presented component unit is reported in a separate column in the financial statements to emphasize legal separation from the City. Discretely presented component units are reported only at the government-wide financial reporting level. The component unit columns included on the government-wide financial statements identify the financial data of the City's discretely presented component units. Below is a brief description of the City's component units.

Blended component units:

Commerce City Northern Infrastructure General Improvement District (NIGID) – Members of the City Council serve as the Board of Directors of the NIGID. The objective of the NIGID is the development of roadway, water, and wastewater improvements in the District that will promote the health, prosperity, security, and general welfare of the citizens of the City and the District. The NIGID is reported as a capital projects fund and does not issue separate financial statements.

Commerce City E-470 Commercial Area General Improvement District (ECAGID) – The ECAGID was established on April 1, 2013. Members of the City Council serve as the Board of Directors of the ECAGID.

The objective of the ECAGID is the development of roadway, water, and wastewater improvements in the District that will promote the health, prosperity, security, and general welfare of the inhabitants of the City and the District. The ECAGID is reported as a capital projects fund and does not issue separate financial statements.

Commerce City E-470 Residential Area General Improvement District (ERAGID) – The ERAGID was established on July 15, 2013. Members of the City Council serve as the Board of Directors of the ERAGID. The purpose of the ERAGID is the construction, installation, maintenance, and operation of water and sewer improvements, roadway and related improvements, and recreation improvements, for the benefit of its municipal residents. The ERAGID is reported as a capital projects fund and does not issue separate financial statements.

Urban Renewal Authority (URA) – The URA Board consists of up to thirteen members: (1) the elected members of the City of Commerce City's City Council; (2) a member appointed by the Adams County Board of County Commissioners; (3) a board member of a special district selected by agreement of the special districts levying a mill levy within the boundaries of the URA; (4) an elected member of a board of education of a school district levying a mill levy within the boundaries of the URA selected by agreement of the school districts levying a mill levy within the boundaries of the URA; and (5) a member appointed by the Mayor of the City of Commerce City. The objective of the URA is the acquisition, clearance, rehabilitation, conservation, development, or redevelopment of slum and blighted areas within the City. The URA's primary own-source revenues are earmarked property taxes and miscellaneous revenues. Three separate plans and districts are included within the Urban Renewal Authority Fund. The three are: (1) Center City Phase I, (2) Derby Business District, and (3) Mile High Greyhound Park. Current projects within the URA include:

- City Plaza/Parkway Market shopping centers at E. 62nd Avenue and Parkway Drive
- Derby District infrastructure improvements at 72nd Place and Monaco Street
- Mile High Greyhound Park redevelopment project
- Victory Crossing, located at E. 60th Avenue and Quebec Street, containing Dick's Sporting Goods Park, Commerce City Civic Center, and community and youth soccer fields

The Authority is reported as a special revenue fund and does not issue separate financial statements.

Discretely presented component units:

Quality Community Foundation (QCF) – The QCF was created as a 501(c)3 organization in 2006 to provide charitable services to the community. The Foundation has a Board of Directors of not less than five directors or more than eleven directors. The Board of Directors consists of the City's finance director and such other members appointed by the City Council. There is a financial burden on the City as the City provides the majority of the Foundation's revenues. The Foundation does not issue separate financial statements.

Commerce City Housing Authority – The City Council appoints a voting majority of the Board of Directors of the Commerce City Housing Authority. However, a voting majority of City Council members do not serve on the Authority's Board. The City Council can impose its will on the Authority. The services provided by the Authority exclusively benefit the City's residents. The Commerce City Housing Authority issues separate annual financial statements.

1-B. BASIS OF PRESENTATION

The City's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements – The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the City as a whole. The primary government and the discretely presented component units are presented separately within these financial statements with the focus on the primary government. Fiduciary activities are not included at the government-wide reporting level. Individual funds are not displayed, however, the statements distinguish governmental activities supported by taxes and general revenues from business-type activities financed in whole or in part by fees charged to external customers. The operating activity of the internal service funds is eliminated to avoid double counting revenues and expenses.

The statement of net position presents the financial position of the governmental and business-type activities of the City and it's discretely presented component units at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities, for each identifiable activity of the business-type activities of the City, and for each discretely presented component unit. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services, (2) operating grants and contributions which finance annual operating activities including restricted investment income, and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses.

To match program revenues to functions, the determining factor for charges for services is which function generates the revenue. For grants and contributions, the determining factor is to which functions the revenues are restricted. Revenues that are not categorized as program revenues, such as taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements – During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and demonstrate legal compliance. Fund financial statements are designed to present financial information at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for non-major funds. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting – The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the

difference between governmental fund assets and liabilities and deferred inflows of resources as fund balance. The following are the City's major governmental funds:

General Fund – The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Capital Expenditures Fund – This fund accounts for the design and construction of capital improvement projects.

Northern Infrastructure General Improvement District (GID) Fund – This fund accounts for the construction of infrastructure improvements within the GID.

Urban Renewal Authority Fund – This fund accounts for activities related to acquisition, clearance, rehabilitation, conservation, development, and redevelopment in the interest of public health, safety, morals, or welfare for residents of the City.

Other Governmental Funds – Include non-major special revenue funds and non-major capital project funds established to account for specific revenue sources and capital project areas that are not accounted for in any of the governmental funds listed above.

Debt Service Fund – This fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Proprietary Funds – Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as either enterprise or internal service. Enterprise funds are used to account for activities that operate like a business. Internal service funds are used for goods or services provide on a cost-reimbursement basis to other departments of the government. The City's proprietary funds are the Solid Waste Management Enterprise Fund, the Fleet Management Internal Service Fund, the Information Technology Internal Service Fund, and the Facility Services Internal Service Fund.

Fiduciary Funds – Fiduciary fund reporting focuses on net position. The City's fiduciary funds are one pension trust fund and an agency fund. The pension trust fund provides pensions to City elected officials. The custodial fund collects school facility fees for two school districts and forwards these fees to the school districts.

1-C. MEASUREMENT FOCUS

Government-wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows, and all liabilities and deferred inflows associated with the operation of the City are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements – All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types and pension trust funds are prepared using the economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated

with the operation of these funds are included on the statements of net position. The statements of changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

1-D. BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the calendar year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current calendar year. For the City, the phrase "available for exchange transactions" means expected to be received within 60 days of year-end.

Revenues - Non-exchange Transactions — Non-exchange transactions in which the City receives value without directly giving equal value in return include sales tax, property taxes, grants, and donations. On an accrual basis, revenue from sales tax is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the calendar year for which the taxes are levied (Note 3-B). Revenue from grants and donations is recognized in the calendar year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected by December 31, 2020, for property taxes and within 60 days thereafter for other non-exchange transactions) before it can be recognized.

Under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales/use tax, other taxes (franchise, cigarette, etc.), and special assessments. Reimbursement based grants are recognized as revenue when the qualifying expenditures have been incurred and grant requirements have been met. All other revenue items are considered to be measureable and available only when cash is received by the City.

Unearned Revenue – Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On both the government-fund financial statements and the government-wide financial statements, revenues are considered unearned for:

- Grants and entitlements received before the eligibility requirements are met (e.g., cash advances)
- Sales taxes have been received from disputed sales tax assessments
- Cash in lieu of public improvements defined in agreements

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred, if measurable. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

1-E. ASSETS, LIABILITIES, AND FUND EQUITY 1-E-1. CASH, CASH EQUIVALENTS, AND INVESTMENTS

Cash and Cash Equivalents – Cash and cash equivalents include amounts on demand and time deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. Cash and cash equivalents are reported on balance sheets, statements of net position, and in cash flow statements.

Cash balances of most City funds are pooled and invested. Interest earned from investments purchased with pooled cash is allocated to each fund based on the fund's average equity balance in the pooled fund, except interest earned on Capital Project Funds financed by transfers, which is credited to the General Fund.

Investments – The City is authorized by the City charter and Colorado statutes to invest in:

- Bonds and other interest-bearing obligations of the United States government,
- Bonds and other interest-bearing obligations which are guaranteed by the United States government,
- Bonds which are a direct obligation of the State of Colorado, or of any city, county, or school district therein,
- Demand accounts, interest bearing savings accounts or certificates of deposit in eligible public depositories,
- Investment instruments defined in Colorado law as eligible for the investment of police and pension funds,
- Notes or bonds issued pursuant to the "National Housing Act",
- Repurchase agreements, and
- Local government investment pools.

The City charter also authorizes the City to invest in real estate for the purpose of enhancing development of the City in accordance with the City's Master Plan.

The Urban Renewal Authority, the Commerce City Northern Infrastructure General Improvement District, and the Commerce City Housing Authority are authorized by their respective governing Boards to invest in obligations as prescribed by Colorado statutes and their respective bylaws.

Assets of the City's pension plans are invested in accordance with Colorado statutes. These statutes authorize the City to invest these assets in:

- Bonds and other interest-bearing obligations of the United States government,
- Bonds, and other interest-bearing obligations which are guaranteed by the United States government,
- State and municipal bonds,
- Corporate notes, bonds, or debentures (convertible or otherwise),
- Railroad equipment trust certificates,
- Real property,
- Loans secured by first mortgages or deeds of trust on real property,
- Guarantee agreements with life insurance companies,
- Real estate limited partnerships, and
- Common or preferred corporate stocks.

Investments of the City are stated at fair value based upon quoted market prices. The value of investments held in external investment pools is the same as the value of pool shares. These investment pools are created by State Statute and operate similarly to a money market fund and each share is equal in value to \$1. The designated custodial bank provides safekeeping and depository services to these investment pools in connection with the direct investment and withdrawal functions of these investment pools. All securities owned by these investment pools are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by these investment pools. Investments of these investment pools consist of U.S. Treasury bills, notes and note strips, and repurchase agreements collateralized by U.S. Government Securities.

1-E-2. RECEIVABLES

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable.

1-E-3. INTERFUND BALANCES

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

1-E-4. CONSUMABLE INVENTORIES

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when consumed. Inventories of the proprietary funds are expensed when consumed.

1-E-5. PREPAID ITEMS

Payments made to vendors for services that will benefit periods beyond December 31, 2020, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reserved, as this amount is not available for general appropriation. Prepaid insurance relating to bond issuance costs are described in Note 1-E-9.

1-E-6. CAPITAL ASSETS

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds or contributions. The City reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements. Capital assets utilized by proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the proprietary fund's statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The City maintains a capitalization threshold of five thousand dollars. The City's infrastructure consists of roads, bridges, storm sewers, traffic islands, street lights, traffic signals, and street signs. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise fund is capitalized, less the amount of interest earned during the same qualifying period.

All reported capital assets are depreciated except for land, right-of-ways, water rights, and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities	Business-Type Activities
Description	Estimated Lives	Estimated Lives
Buildings	30 - 35 years	20 - 30 years
Vehicles and equipment	3 - 5 years	2 - 10 years
Intangibles	5 - 10 years	-
Infrastructure	3 - 25 years	-

1-E-7. COMPENSATED ABSENCES

After six months of employment, employees earn general leave benefits based upon time employed, with an option to use up to 24 of these hours prior to six months of employment. General leave benefits accrue as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the employer would compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits do not vest. Certain employees working over 40 hours per week accrue compensatory time at the rate of 1 1/2 times hours. Compensatory time may be used throughout the year or paid at a scheduled time during the year.

All compensated absence liabilities (compensatory time) include salary related payments, where applicable. At the end of the year, all compensatory time not taken is recorded as a liability at the current salary rates and applicable social security and Medicare costs.

The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated absences liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

1-E-8. ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Bonds are recognized as a liability in the governmental fund financial statements "when due."

1-E-9. DEBT PREMIUMS, DISCOUNTS, ISSUANCE COSTS AND DEBT REFUNDING GAINS AND LOSSES

On the government-wide statement of net position and the proprietary fund type statement of net position, debt premiums and discounts are netted against the debt payable for reporting purposes. On the government-wide and proprietary fund type statement of activities, debt premiums and discounts are deferred and amortized over the life of the debt using the effective interest method.

Debt refunding gains and losses are reported as deferred inflows or outflows of resources on the statements of net position. These gains and losses are deferred and amortized over the shorter of the life of the refunding debt (new debt) or the refunded debt (the old debt).

Bond issuance costs are recognized as an outflow of resources in the reporting period in which they are incurred, with the exception of prepaid bond insurance costs, which are deferred and amortized over the life of the debt as amortization expense.

At the government fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as debt service expenditures.

1-E-10. FUND EQUITY

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position" (Note 3-K).

Fund Balance – Generally, fund balance represents the difference between the current assets and deferred outflows, and current liabilities and deferred inflows. In the fund financial statements, governmental funds report fund balance classifications in a hierarchy manner based on spending constraints. Fund balances are classified in the five manners below:

- 1. *Nonspendable* Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- 2. **Restricted** Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- 3. *Committed* Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the approval of an ordinance. The City Council also may modify or rescind the commitment.
- 4. *Assigned* Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has authorized the City finance director or designee to assign fund balances.
- 5. *Unassigned* Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Net Position Flow Assumptions – In order to report net position as a restricted – net position and an unrestricted – net position in the government-wide and proprietary fund financial statements, the City has established a flow assumption policy. It is the City's policy to use restricted – net position first before using unrestricted – net position.

Fund Balance Flow Assumptions – It is the City's policy to consider restricted fund balance to have been used before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Position – The net position represents the difference between assets and deferred outflows, and liabilities and deferred inflows. The net position component, "net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has not spent) for the acquisition, construction, or improvement of those assets. The net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The balance of the net position is reported as unrestricted.

1-E-11. OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for the use of the golf course and solid waste program, and the internal use of vehicles, computers, and facilities. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each fund. All other revenues and expenses are classified as non-operating including investment earnings, interest expense, and the gain or loss on the disposition of capital assets.

1-E-12. CONTRIBUTIONS OF CAPITAL

Contributions of capital reported in proprietary fund financial statements and the government-wide financial statements arise from outside contributions of capital assets (e.g. developers), and grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-13. INTERFUND ACTIVITY

Exchange transactions between funds are reported as revenues in the service providing funds and as expenditures/expenses in the service receiving funds. On the government-wide statement of activities, the exchange transactions between the internal service funds and the service receiving funds are eliminated. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

1-E-14. ESTIMATES

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-E-15. ROUNDING

The preparation of the financial statements represent accurate numerical values by using rounding which may cause differences in the statements due to rounding. Rounding a numerical value means replacing it by another value that is approximately equal but shorter, simpler, or more explicit.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

2-A. BUDGETARY INFORMATION

The City adopts an annual appropriated operating budget for the General Fund, certain Special Revenue Funds (all except Special Improvements Fund, Police Forfeiture Fund - State, Police Forfeiture Fund - Federal, and CC/BSD Use Tax Fund), the Debt Service Fund, all capital projects funds, all proprietary funds, and certain pension trust funds.

The budgets are adopted on a basis consistent with GAAP for all governmental fund types and fiduciary fund types. Proprietary fund type budgets are adopted on the modified accrual basis of accounting (i.e., a non-GAAP budgetary basis).

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget is the individual fund level. Budgetary control is exercised at the department level.

The City Manager is authorized to transfer budgeted amounts between departments within the same fund. Any revisions, which alter total expenditures of any fund, must be approved by the City Council. During the year, the City Council approved supplemental appropriations. All annual appropriations lapse at calendar year end.

The Commerce City Northern Infrastructure General Improvement District budget is prepared by the District's Board. Budgetary matters with respect to the basis of accounting, legal level of budgetary control, and lapsing of appropriations are the same for the fund types of the District as similar fund types for the City. The Housing Authority is not legally required to adopt an annual budget. Under Local Government Budget Law of Colorado, housing authorities are exempted from the requirement to adopt annual appropriated budgets.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of applicable appropriation, can be employed as an extension of formal budget process. The City does not use encumbrance accounting as a common practice. When used on an occasional basis, encumbrances lapse at year-end lapse and generally are re-appropriated the following year.

2-B. EXCESS OF EXPENDITURES AND OTHER FINANCING USES OVER APPROPRIATIONS

Debt Service Fund	\$ 3,450
Buffalo Run Tributary Drainage Basin Fund	29,386
E-470 Commercial Area GID Fund	2,519
E-470 Residential Area GID Fund	210
Fleet Management Fund	225,210

Excess expenditures were funded by additional revenues from multiple funds.

2-C FUND DEFICITS

There are no fund deficits to report for 2020.

2-D. EMERGENCY RESERVES

In 1992, Colorado voters approved the Taxpayer's Bill of Rights (TABOR) amendment to the Colorado Constitution that placed certain limits on local government spending, by limiting the amount of revenue that the local government can retain and spend.

However, local governments have the option of placing a ballot measure before the voters asking for approval to retain revenue over the limit. The City's voters approved a ballot measure that allows the City to exclude all revenues, with the exception of property taxes, from those included within Article X, Section 20 of the Colorado Constitution.

This section of the Colorado Constitution also requires the maintenance of an emergency reserve equal to 3% of fiscal spending. The use of this reserve is restricted solely for declared emergencies. In accordance with Article X, Section 20 of the Colorado Constitution, the City has reserved 3% of total revenues and transfers in, less a variety of exemptions including most transfers in, as an emergency reserve in the general fund, urban renewal authority fund, special improvement districts fund, chemical roundup fund, CC/BSD use tax fund, capital expenditures fund, northern infrastructure GID fund, water rights fund, the drainage-district funds, impact fees fund, and internal services funds.

NOTE 3 - DETAILED NOTES ON ALL FUNDS

3-A. DEPOSITS AND INVESTMENTS

As required by GASB Statement No. 40, Deposit and Investment Risk Disclosures are included in the notes below.

Deposits - Colorado State statutes govern the City's deposit of cash. The Colorado Public Deposit Protection Act (PDPA) for banks and savings and loans requires state regulators to certify eligible depositories for public deposits. The Act requires eligible depositories with public deposits in excess of the federal insurance levels to create a single institution collateral pool of defined eligible assets. Eligible collateral includes obligations of the United States, obligations of the state of Colorado or local Colorado governments, and obligations secured by first lien mortgages on real property located in the state. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The fair value of the assets in the pool must be at least equal to 102% of the uninsured deposits.

Custodial Credit Risk – The custodial credit risk for deposits is the risk that, in the event of a bank failure, the City's deposits may not be recovered.

At December 31, 2020, the carrying amount of the City's deposits (including its component units) was \$10,897,915 and the bank balance was \$11,664,341. The bank balance was covered by federal depository insurance \$348,126 and PDPA \$11,316,215.

Investments – The City's Charter allows the Finance Director to invest funds not required to be disbursed for a period of thirty (30) days or more in securities permitted by the Statutes of Colorado governing investment of public funds, specifically including interest bearing bonds of the United States, the State of Colorado, and of any city in the State of Colorado. Interest on such investments shall be credited to the fund to which the invested money belongs, if that can be determined. Otherwise, interest is credited to the City's general fund.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The City's investment policy limits maturities to ten years or less, with the average maturity of the cash and investment portfolio to not exceed five years.

At December 31, 2020 the City had the following investments and maturities:

	Maturity Period									
Investment Type		Fair Value	Th	ree Months or Less	4 -	12 Months	_1	- 5 Years	_6	- 10 Years
Farm Credit Note	\$	57,406,497	\$	-	\$	5,465,574	\$	6,096,128	\$	45,844,795
Freddie Mac Note		22,930,469		-		-		13,000,983		9,929,486
Fannie Mae Note		11,033,655		-		3,028,624		8,005,031		-
Federal Home Loan Banks BND		57,240,711		7,282,006				10,000,746		39,957,959
Total		148,611,332	\$	7,282,006	\$	8,494,198	\$	37,102,888	\$	95,732,240
Annuity		36,378								
Colorado Trust - Money Market		3,603,226								
Colorado Trust - GID 104th Ave - 2008		3,551,473								
Wells Fargo - Money Market		12,163,027								
ICMA RHS Plan		5,227,435								
Total	\$	173,192,871								

Fair Value Measurement – The City categorizes its fair value measurement within the fair value hierarchy established by GAAP.

The City has the following recurring fair value measurement as of December 31, 2020:

- Federal Agency securities of approximately \$148.6 million are valued using benchmarking and matrix pricing (Level 2 inputs); these include:
 - o Farm Credit Note
 - o Freddie Mac Note
 - o Fannie Mae Note
 - o Federal Home Loan Banks BND
- Annuity of \$36 thousand is valued based on the term of the underlying policy based on actuarial calculation made by the insurer (Level 2 inputs)
- Wells Fargo Money Market holding of \$12.2 million measured at cost and subject to leveling (Level 2 inputs)
- COLO TRUST of approximately \$7.2 million is measured at Net Asset Value (NAV) and not subject to leveling
- ICMA VantageCare Retirement Health Savings Plan of approximately \$5.2 million is reported at fair value and subject to leveling (Level 1 inputs)

Fiduciary Fund Investments – The City's fiduciary responsibility is limited to acting as an agent for the transfer of assets to ICMA. ICMA is responsible for the investment of the funds as directed by the Plan participants. The fair value of the total investments maintained with ICMA for the Police Plan at December 31, 2020, was \$34,105,707.

	Police		
Asset Category	Percent of Assets	Balance	Fair Value
Stable Value/Cash Management	8%	\$ 2,811,619	Level 2 input
Bond	20%	6,823,574	Level 2 input
Balanced/Asset Allocation	25%	8,585,060	Level 2 input
U.S. Stock	35%	11,964,401	Level 2 input
International/Global Stock	11%	3,505,898	Level 2 input
Specialty	1%	415,155	Level 2 input
Total Assets	100%	\$34,105,707	

Credit Quality Risk – Credit quality risk is that an issuer or other counterparty to an investment will not fulfill its obligations. The City's investment policy addresses credit quality risk and authorizes the City to invest as follows:

- Commercial Paper that, at the time of purchase, is rated in its highest rating category by one or more nationally recognized organizations which regularly rate such obligations.
- Any interest in any local government investment pool organized pursuant to part 7 of article 75 of title 24, Colorado Revised Statutes, as amended.

At December 31, 2020, Colotrust, a local government investment pool that the City invests in, was rated AAAm by Standard & Poor's. The various federal investments are rated Aaa/AAA and Aaa/AA. The corporate bonds are rated AA by Standard & Poor's and rated A1 by Moody's.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of a bank failure, the City's investments may not be recovered. The City's investment policy addresses custodial credit risk as follows:

- Any security issued by, guaranteed by, or for which the credit of any of the following is pledged for payment: The United States, a Federal Farm Credit bank, the Federal Land Bank, a Federal Home Loan bank, the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Export-Import Bank, or the Government National Mortgage Association;
- Any security issued by, guaranteed by, or for which the credit of the following is pledged for payment: An entity or organization which is not listed in paragraph (1) above, but which is created by, or the creation of which is authorized by, legislation enacted by the United States Congress and which is subject to control by the federal government which is at least as extensive as that which governs an entity or organization listed in paragraph (1) above. No security may be purchased pursuant to this paragraph (2) unless, at the time of purchase, the security is rated in its highest rating category by one or more nationally recognized organizations, which regularly rate such obligations.
- Any Banker's Acceptance that is issued by a state or national bank which has a combined capital and surplus of at least two hundred fifty million dollars. No security may be purchased pursuant to this paragraph (3) unless (a) the deposits of such bank are insured by the federal deposit insurance corporation, and (b) at the time of purchase, the long-term debt of such bank or the holding company of such bank is rated in one of its three highest rating categories by one or more nationally recognized organizations which regularly rate such obligations.
- Repurchase Agreements fully collateralized by obligations referred to in paragraphs (1) or (2) above if all of the following are met: a) the securities subject to the repurchase agreement must be marketable; b) the title to or a perfected security interest in such securities, along with any necessary transfer documents, must be transferred to the City or to a custodian acting on behalf of the City; c) such securities must actually be delivered to a third-party custodian or trustee for safekeeping on behalf of the City; and d) the collateral securities of the repurchase agreement must be collateralized at no less than one hundred two percent (102%) and marked to market no less frequently than weekly.

• All of the City's investments either are insured or registered or for which the securities are held by the City or its agent in the City's name or uninsured and unregistered investments for which the securities are held by the counter party's trust department or agent in the City's name.

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City does not have a formally adopted investment policy for managing concentration of credit risk. The only investments in excess of 5% of the City's investment portfolio are federal securities and money market funds.

3-B. RECEIVABLES

Property Taxes – Property taxes are collected one year in arrears. Property taxes are collected by Adams County, then remitted to the City. Property tax collection dates are listed below for 2019 property taxes received in 2020:

County Certification of Values	December 1, 2019
Mill Levy Certification	December 15, 2019
Enforceable Lien Date	January 1, 2020
1st Half Payment Due Date	February 28, 2020
Full Payment Due Date	April 30, 2020
2nd Half Payment Due Date	June 15, 2020

3-C. CAPITAL ASSETS

Capital Asset activity for the year ended December 31, 2020 for governmental activities (including the internal service funds) was as follows:

Capati C	Asset Class	Beginning Asset Class 1/1/2020 Additions Deletic		Deletions	Transfer	Ending 12/31/2020	
Lind	Governmental activities:

3-D. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position reports *deferred outflows of resources*. This separate financial statement element, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City reports the deferred charge (\$1,909,041) on unamortized bond refunding loss reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position reports *deferred inflows of resources*. This separate financial statement element, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City reports two of these items. One item, *deferred inflow(s)*, is reported only in the governmental funds balance sheet. The governmental funds report deferred inflow(s) from special assessments \$12,167. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

The following deferred inflows include property taxes and other deferred revenues that are reported as deferred inflows of resources since they are recognized as receivables before the period for which the taxes are levied or revenues are recognized. These amounts are reported as follows:

Governmental Fund Bala	ınce Sheet	Government Wide Stateme	ent of Position
Fund	Amount	Fund	Amount
General	\$ 3,682,982	General	\$ 3,682,982
Northern Infrastructure GID	7,658,768	Northern Infrastructure GID	7,658,768
E-470 Commercial GID	342,325	E-470 Commercial GID	342,325
E-470 Residential GID	916	E-470 Residential GID	916
Urban Renewal	551,700	Urban Renewal	551,700
Special Improvements	12,167	Police Department	37,535
Police Department	37,535		
Total	\$ 12,286,393	Total	\$ 12,274,226

3-E. ASSETS HELD FOR RESALE

The City has acquired the following assets as held for resale:

Fund	Amount	Purpose
Water Rights Acquisition Fund	\$5,465,582	Purchase of irrigation and potable water rights
Northern Infrastructure GID Fund	\$2,318,230	Farmers Reservoir and Irrigation Company water held for resale
Urban Renewal Authority Fund	\$4,640,400	Acquisition, clearance, rehabilitation, conservation, development,
		or redevelopment of slum and blighted areas within the City

3-F. INTERFUND BALANCES AND TRANSFERS

Interfund balances at December 31, 2020 represented no need for the reclassification of a cash overdraft in the City's cash and investment pool.

Interfund transfers for the year ended December 31, 2020, consisted of the following:

	Transfer from:						
Transfer to:	General Fund	Urban Renewal Authority	Nonmajor Special Revenue Funds	Nonmajor Capital Expenditure Funds	Nonmajor Enterprise Funds	Internal Service Funds	Total
Urban Renewal Authority General Fund	\$ 83,000)		530,831			\$ 83,000 530,831
Capital Expenditures Fund Debt Service Fund Internal Service Funds Fiduciary Funds	16,336,001 10,386,729 564,523 51,360	305,038	1,712,896	1,538,959	1,102,500	750,000	21,440,356 10,691,767 564,523 51,360
Total	\$ 27,421,613	\$ 305,038	\$ 1,712,896	\$ 2,069,790	\$ 1,102,500	\$ 750,000	\$ 33,361,837

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations and to return money to the fund from which it was originally provided once a project is completed.

All City transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer. The transfers between the general fund and the fiduciary funds are reclassified as expenses on the government-wide statement of activities.

The transfer from the general fund to the elected officials' retirement fund (\$51,360) is reclassified as a third party transaction on the government-wide statement of activities.

3-G. LONG-TERM DEBT

Primary Government Bonds – The following is a summary of the outstanding long-term bond issues at December 31, 2020:

2015 Sales and Use Tax Revenue Bonds – On April 2, 2015, the City issued serial revenue bonds in the amount of \$52,645,000 to refinance and combine the 2005 Series Sales and Use Tax Revenue Bonds in the amount of \$17,500,000 and the 2006 Series Sales and Use Tax revenue bonds in the amount of \$46,500,000. The interest rate ranges are 2% – 5%. Annual principal and interest payments are due August 1, with the principal maturing August 1, 2036.

2015 Sales and Use Tax Revenue Bonds

Year	Principal		Interest		Total
2021	1,960,000		1,844,875		3,804,875
2022	2,000,000		1,795,875		3,795,875

Total	\$	562,786	\$ 1	5,590 \$	578,376	

2017A Certificates of Participation – On February 14, 2017, the City issued certificates of participation in the amount of \$28,335,000 to refund the 2006 Certificates of Participation that funded the civic center and related facilities. The interest rate ranges are 2.0% - 5.0%. Annual principal (starting in 2017) and interest payments are due December 15, with the principal maturing December 15, 2037.

The City refunded the 2006 Certificates of participation of \$30,900,000 to reduce the total debt service payment over the 20 years by \$4,843,257 and obtain an economic gain of \$3,305,852. The net proceeds of \$28,335,000 were used to purchase U.S. government securities. The City then transferred the 2017A Certificates of Participation from the Finance Authority Fund Business-type Activity Debt to the General Fund Primary Government Bonds.

2017B Certificates of Participation – On October 19, 2017 the City issued certificates of participation in the amount of \$6,500,000 to finance the purchase of City water. The interest rate is 2.7%. Per the amortization schedule, annual principal (starting in 2017) and interest payments are due July 15, with the principal maturing July 15, 2032. The actual amount of principal paid over the course of the year is impacted by the fact that payments are made monthly rather than semi-annually (in actuality, a higher principal amount is being paid over the course of the year).

Annual debt service requirements to amortize this debt, as of December 31, 2020 follow:

2017B Certificates of Participation

Total bonded debt	296,726,096	-	8,453,939	288,272,157	7,925,929	
Compensated absences	179,795	128,487	143,836	164,446	152,279	
Total Governmental Activities	\$ 296,905,891	\$ 128,487	\$ 8,597,775	\$ 288,436,603	\$ 8,078,208	

The debt service fund services the sales and use tax refunding bonds and revenue bonds, the Northern Infrastructure GID fund services the GID general obligation refunding bonds. The general fund services the outstanding certificates of participation. The 2013 lease purchase agreement will be repaid from the general fund. Compensated absences are paid from the fund in which the employee works, primarily the general fund.

Pledged Revenues – The City has pledged future sales and use tax receipts (pledged revenues) to repay the original amount of sales and use tax revenue bonds totaling \$173,390,000.

- 2014 Sales and Use Tax Revenue Bond Series \$70,045,000
- 2015 Sales and Use Tax Revenue Bond Series \$48,885,000
- 2016 Sales and Use Tax Revenue Bond Series \$54,460,000

The proceeds from the Bond series were used to construct infrastructure. The bonds are payable solely from the pledged sales and uses taxes and are payable through 2046.

Annual principal and interest payments on the bonds referenced above are expected to require approximately 16.6 percent of pledged revenues. The total principal and interest remaining to be paid on the total bonds is approximately \$266.2 million. For the current year, total principal and interest paid and total incremental sales and use tax revenues were approximately \$11.9 million and \$71.6 million respectively.

3-H. OPERATING LEASES

The City has entered to various operating lease agreements financing corporations, primarily for copiers. The following payments are due to the various lessors on an annual basis for the term of the lease as follows:

Year	Annu	al Payment
2021	\$	39,091
2022		41,290
2023		41,342
2024		42,058
2025		42,058
Total	\$	205,839

The 2020 rental payments totaled \$39,934.

3-I. PENSIONS

The City sponsors four defined contribution retirement plans. A separately issued audited financial report is not available for these plans. The financial statements for these pension plans are presented at the end of this note.

Police Pension Plan – The City sponsors a defined contribution (money purchase) pension plan, known as the City of Commerce City Police Pension Plan (the Plan), that covers all commissioned officers of the police department. This Plan is considered a qualified trust and remains tax-exempt. The assets of this Plan is invested with the International City Manager's Association (ICMA). A separately issued audited financial report for the total ICMA plan is available from the ICMA. The City Council has the authority for establishing and amending contribution requirements. The City's fiduciary responsibility is limited to acting as an agent for the transfer of assets to ICMA; therefore, a trust fund is not reported for this Plan. ICMA is responsible for the investment of the funds as directed by the Plan participants.

All commissioned officers of the police department who work 32 hours or more per week enter the Plan on the date on which the individual commences employment. The Plan is funded by both employer and employee contributions. The City and the participant each contribute an amount equal to 10 percent of the participant's compensation. In addition to the mandatory 10 percent participant contribution, participants also may make voluntary contributions to the Plan. Participant contributions are fully vested upon payment, while City contributions are subject to a 5-year graded vesting schedule. Additionally, police officers are provided with death and disability coverage by a statewide plan administered by the State of Colorado Fire and Police Pension Association.

For the year ended December 31, 2020, the City's total Police Department payroll was \$12,661,793 and the total payroll covered by the Plan was \$9,625,889. The fair value of the total assets maintained with ICMA for the Plan at December 31, 2020 was \$34,105,707. Contributions to the Plan for the year ended December 31, 2020, and the Plan participant composition at December 31, 2020, are summarized below:

Contributions	I	Employee	Employer			
10% required contribution	\$	962,587	\$	962,587		
Total	\$	962,587	\$	962,587		
Plan Participants						
Fully vested employees		34				
Partially vested employees		67				
Total plan participants		101				

Elected Officials Retirement Plan – As approved by the City Council through Ordinance 764 dated April 14, 1986, the City is to provide a monthly cash benefit of twenty dollars per month for each year of service for Council members who have served more than five years and have attained their sixtieth birth date. As of year-end, there were 18 Council members who have qualified for this benefit. The City finances the plan on a pay-as-you-go basis. This plan is a single employer plan. For the year ended December 31, 2020, the City recognized as incurred \$49,360 in expenditures. This trust fund is named Elected Officials Retirement Fund. The fair value of total pooled cash and investment assets held by this plan at December 31, 2020 was \$274,613.

457 Employee Retirement Plans – The City has a 457 Deferred Compensation pension plan for full-time employees and part-time employees who regularly work more than 20 hours per week. Activity for the Plan is aggregated within the City's 457 Employee Retirement Plans Fund. A separately issued audited financial report for the total ICMA plan is available from the ICMA.

In accordance with Internal Revenue Service Code Section 457(b), these funds are considered qualified trusts and remain tax-exempt. A separately audited pension plan report is not available for these plans. The assets of the plan are invested with International City Manager's Association (ICMA). The City Council has the authority for establishing and amending contribution requirements. The City's fiduciary responsibility is limited to acting as an agent for the transfer of assets to ICMA; therefore, a trust fund is not reported for these plans. ICMA is responsible for the investment of the funds as directed by the Plan participants. The fair value of the total assets maintained with ICMA for the Plan at December 31, 2020, was \$15,159,267.

401(a) Employee Retirement Plans – The City has four defined contribution (money purchase) pension plans for full-time employees. Activity for the Plans is aggregated within the City's 401(a) Employee Retirement Plans Fund. A separately issued audited financial report for the total ICMA plan is available from the ICMA. The Plans are:

- General Employees
- City Manager
- Executive Team
- Police Executive Team

In accordance with Internal Revenue Service Code Section 401(a), these funds are considered qualified trusts and remain tax-exempt. A separately audited pension plan report is not available for these plans. The assets of all four plans are invested with International City Manager's Association (ICMA). The City Council has the authority for establishing and amending contribution requirements. The City's fiduciary responsibility is limited to acting as an agent for the transfer of assets to ICMA; therefore, a trust fund is not reported for these plans. ICMA is responsible for the investment of the funds as directed by the Plan participants. The fair value of the total assets maintained with ICMA for all four Plans at December 31, 2020, was \$36,516,147.

General Employees – Participation in the General Employee defined contribution plan is mandatory for all general employees with each employee required to contribute 6% of compensation, and the City contributes an amount equal to 6% of the employees' compensation. An employee is fully vested in his/her own contributions upon payment and vests in the City contributions based on years of continuous service. An employee is vested 20% after one year of continuous service and vests an additional 20% per year until fully vested. The funds are not available to the employee until separation from service or retirement, and only for amounts vested. Loans are available with restrictions. Total employee and employer contributions to the plan for 2020 were \$837,771 and \$837,771 respectively. For the year ended December 31, 2020, the City's total payroll was \$32,884,587 while the total payroll covered by the Plan was \$13,962,848.

City Manager – The City Manager's defined contribution plan is mandatory for the City Manager. The City Manager is required to contribute 8% of compensation and the City contributes an amount equal to 8% of the Manager's compensation. The City Manager is fully vested in all contributions to the plan. Loans are available with

restrictions. The total employee and employer contributions to the Plan for 2020 were \$17,096 and \$17,096, respectively. For the year ended December 31, 2020, the payroll covered by the plan was \$213,699.

Executive Team – Effective July 1, 1997, the City developed an Executive Team defined contribution plan for all general management team employees. Participation in the Executive Team defined contribution plan is mandatory for general management team members, with each employee required to contribute 6% of compensation with the City matching an amount equal to 6% of the employees' compensation. For the City's Deputy City Managers and City Attorney the contribution rate is 8% rather than 6%. An employee is fully vested in his/her own contributions at all times and vests in the City contributions based on years of continuous service. An employee is vested 33% after one year of service, 66% after two years of service, and is fully vested after three years of service. Loans are available with restrictions. Total employee and employer contributions to the Plan for 2020 were \$189,288 and \$189,288, respectively. For the year ended December 31, 2020, the payroll covered by the Plan was \$3,011,600.

Police Executive Team – Effective July 1, 1997, the City developed a Police Executive Team defined contribution plan for all police management team employees. Participation in the Police Executive Team defined contribution plan is mandatory for all police management team members with each employee required to contribute 3% of compensation and the City contributes an amount equal to 3% of the employee's compensation. An employee is fully vested in his/her own contributions at all times and vests in the City contributions based on years of continuous service. An employee is vested 33% after one year of service, 66% after two years of service, and is fully vested after three years of service. Loans are available with restrictions. Total employee and employer contributions to the Plan for 2020 were \$14,584 and \$14,584 respectively. For the year ended December 31, 2020, the payroll covered by the Plan was \$486,128.

3-J. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Defined Contribution Plan – The City administers a single-employer health care plan, the "Vantage Care Retirement Health Savings Plan." This plan is a defined contribution plan. The participation in the plan was authorized by the City Council, which has the authority to establish and amend benefit terms.

Plan Description — Upon retirement or total and permanent disability (as defined by the Social Security Administration), employees are eligible to receive a fixed monthly benefit, to be applied towards medical expenses, including premiums. The City Council established and may amend the plan's provisions. Upon retirement, general employees are eligible to receive a fixed monthly benefit of \$415.74 per month, to be applied towards medical expenses, including premiums. This amount may be increased each year, based on Denver-Boulder CPI-U. Due to the uncertain nature of when a benefit increase would be implemented, only one future year had an increase applied. The Plan includes two employee groups, the general employees and the Fraternal Order of Police (FOP) employees.

- General Employees The general employees are eligible for OPEB when reaching age 59 ½ and ten years of service or with 80 points if they were hired prior July 1, 2006. Credited service is the continuous permanent full-time service period from the date of eligible employment with the City to the date of termination of such employment.
- FOP Employees FOP retirees are eligible for subsidized medical coverage. The FOP employees are eligible for OPEB upon 20 years of service. Credited service is the continuous permanent full-time service period from the date of eligible employment with the City to the date of termination of such employment. FOP retirees elect to participate in the Vantage Care Retirement Health Savings Plan or continue to be covered under the Health Insurance plan offered by the City. Once they select a plan they cannot change. Retirees can choose one of three health insurance plans that include four tiers within the plans. The City will pay an amount equal to the lowest single premium for single retirees and half of the lowest employee plus dependent premium for retirees who wish to cover a spouse. The retiree is responsible for the balance of premium, if any. At age 65, the benefit becomes a flat \$75 per month towards Medigap coverage if the retiree has requested and submitted proof they are enrolled in a Supplemental Medigap Plan.

OPEB Expense – For the year ended December 31, 2020 the City recognized contributions of \$278,124 plus fees of \$4,428.

3-K. FUND EQUITY

Fund Balances – Fund balances are classified as follows:

Nonspendable - The following fund balances are nonspendable because they are not in spendable form:

3-L. TAX ABATEMENT PROGRAMS

The City enters into sales and use tax abatement agreements with local businesses with the objective to create jobs, expand tax base, and encourage existing business to make capital investment, and spur new office, industrial and retail expansion and development. The City with the approval of City Council may grant sales and use rebates to new or expansion of organization on a case by case basis. For the year ended December 31, 2020, the City abated \$2,477,467 in sales tax and use tax.

NOTE 4 – OTHER NOTES

4-A. RISK MANAGEMENT

The City is exposed to various risks of loss and carries insurance with the Colorado Intergovernmental Risk sharing Agency (CIRSA). CIRSA is a separate and independent governmental and legal entity, which was established pursuant to an intergovernmental agreement authorized by state statutes. The purposes of CIRSA are to provide members defined liability and property coverage through joint self-insurance, insurance, reinsurance, or any combination thereof, and to assist members to prevent and reduce losses and injuries to municipal property and to persons or property which might result in claims being made against members of CIRSA, or their employees or officers.

Members can participate actively in policy-making through the Board of Directors, which are nominated and elected by members; involvement on a number of board committees; and participation at annual general membership meetings. Operations are funded by individual membership contributions.

It is the intent of the members of CIRSA to create an entity in perpetuity which will administer and use funds contributed by the members to defend and indemnify, in accordance with the by-laws, any member of CIRSA against stated liability or loss, to the limit of the financial resources of CIRSA. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverages at reasonable costs. All income and assets of CIRSA shall be at all times dedicated to the exclusive benefit of its members. The by-laws shall constitute the substance of the intergovernmental contract among the members. The amount of settlements has not exceeded insurance coverage for any of the three previous years.

The City obtains worker's compensation insurance coverage from Pinnacol Assurance. Pinnacol is the largest provider of workers' compensation coverage in the State. The City obtains coverage through IMA, a commercial insurance broker.

4-B. COMMITMENTS

Capital Construction Contracts – The City has multiple active capital construction projects. As of December 31, 2020, the City's outstanding obligations for capital projects within the Major Capital Projects Fund were as follows:

Contractor	Total Contract	Project Expenditures	Remaining Commitments			
Beacon Communications	\$ 69,602	\$ 49,800	\$ 19,802			
Alfred Benesch & Company	552,505	99,953	452,552			
McKinstry	142,455	22,500	119,955			
EST-Rosemary	1,136,730	679,293	457,437			
EST-88th	1,775,868	1,563,724	212,144			
	\$ 3,677,160	\$ 2,415,270	\$ 1,261,890			

Capital Projects Carryover – While the City's operating funds lapse at year-end, unspent capital project funds are eligible for carryover at year-end. Project funds eligible for carryover from 2020 into 2021 are detailed below.

Capital Project	Eligible Carryo	ver Amount

Prairie Gateway/Victory Crossing – In 2005 and 2006, the City issued sales and use tax bonds totaling \$64 million to finance public improvements known as "Prairie Gateway." Kroenke Soccer Stadium, LLC (KSS) arranged for construction financing for all the work not funded by the City's \$64 million sales and use tax bonds and \$10 million in CIPP funds. The KSS investment was approximately \$102 million for the remainder of the public improvements on the Prairie Gateway and the Colorado Rapids Soccer Stadium. Later, when commercial/retail development occurs, the Urban Renewal Authority will issue tax increment bonds to reimburse KSS investment. KSS will have to guarantee repayment of the Urban Renewal Authority bonds. The Prairie Gateway has now been renamed "Victory Crossing."

Employment Agreements – The City has a collective bargaining agreement between the City of Commerce City and the Fraternal Order of Police, Lodge 19, for Police Officers, Police Sergeants, community Service Officers, and the City's Crime Analyst. The current agreement is for two years and expires December 31, 2021. The City also has a collective bargaining agreement with between the City of Commerce City and the American Federation of State, County and Municipal Employees (AFSCME) Local 1144 Commerce City Workers. The current agreement is for two years and expires on December 31, 2022.

4-C. CONTINGENT LIABILITIES

Various claims and lawsuits are pending against the City. After consideration of applicable insurance policy coverage, and the relative merits of each claim or lawsuit, it is the opinion of the City Attorney and City Management that the potential ultimate liability resulting from these actions, if any, will not have a material adverse financial effect on the City.

Colorado voters have passed an amendment to the State Constitution, Article X, Section 20, which has several limitations including revenue limitations, spending abilities, and other specific requirements of state and local governments. The Amendment is complex and subject to judicial interpretation. The City believes it is in compliance with the requirements of the amendment. However, the entity has made certain interpretations of the amendment's language in order to determine its compliance.

4-D. PRIOR PERIOD ADJUSTMENTS

There are two restatements that impact Government Activities, one within the General Fund and one within the Urban Renewal Authority Fund. Both of these restatements are described in more detail below. A third restatement is within the School Facilities Fee Fund and is also described in more detail in the second table below.

At December 31, 2019 and in prior years, the City sponsored Police Pension Plan was included in the financial statements as a fiduciary fund. Upon careful review, this has been removed from the 2020 financial statements as part of the implementation of GASB Statement No. 84 *Fiduciary Activities*. All associated Plan assets remain held with ICMA. However, the City's cash balance of \$372,819 in the fund was added to the City's General Fund.

For the year ended December 31, 2020, the Urban Renewal Authority Fund recognized revenue for the Derby Agreement for two reporting periods. In order to better meet revenue recognition standards moving forward, the 2019 revenue recognized in 2020 was reclassified as beginning fund balance. The restatement outlined below is needed to properly attribute \$172,190 of 2019 revenue to beginning fund balance for 2020.

Description	General Fund	 ban Renewal Authority Fund	Gove	ernment-wide ernmental-type Activities statement of Activities
Fund Balance at December 31, 2019, as previously reported	\$ 83,446,937	\$ 13,170,799	\$	349,399,755
Add equity in pooled cash as of December 31, 2019	372,819	-		372,819
Prior year revenues classified as fund balance	 	 172,190		172,190
Fund Balance, January 1, 2020 as restated	\$ 83,819,756	\$ 13,342,989	\$	349,944,764

At December 31, 2019, the School Facilities Fee Fund was categorized as an agency fund. This Fund is now categorized as a custodial fund and is still included in the Fiduciary Fund statements for 2020. As part of the implementation of GASB Statement No. 84 *Fiduciary Activities*, the accounts payable liabilities within this fund were reclassified as net position since there are no outstanding payables to school districts at December 31, 2020. This resulted in a restatement of beginning net position within this fund at January 1, 2020.

		School
	Fa	cilities Fee
Description		Fund
Net Position at December 31, 2019, as previously reported	\$	-
Previously reported payables classified as net position		3,187,991
Net position, January 1, 2020 as restated	\$	3,187,991

4-E. SUBSEQUENT EVENT

E-470 Commercial Area General Improvement District (ECAGID) Limited Tax General Obligation Loan Series 2021 – On March 22, 2021 (first reading) and April 5, 2021 (second and final reading), the ECAGID Board of Directors approved the authorized the issuance and sale of the District's limited tax general obligation loan series 2021 in the amount of \$14,125,000. This loan includes a fixed interest rate of 2.13% until December 1, 2026 and a 5.00% interest rate thereafter. Interest only payments are due in June and December 2021 and 2022 and June of 2023. Combined principal and interest payments are due beginning in December 2023. The loan will be fully repaid in December 2050. Loan proceeds are to be used for regional infrastructure within Third Creek West, a 234 acre site located on the east side of E-470 and west of the Denver International Airport.

4-F NEW PRONOUNCEMENTS

Effective with the reporting period ending December 31, 2020, the City implemented the GASB Statement No. 84 *Fiduciary Activities*, which establishes the criteria for identifying fiduciary activities of all state and local governments. The focus of the pronouncement's criteria is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. The City conducted a detailed review of its liability accounts, following established guidance, and determined that there are no additional fiduciary activities that need to be accounted for as fiduciary activities. The City continues to segregate and account for previously established fiduciary activities within its fiduciary funds. Changes were made to the fiduciary fund statements to further align reporting of those activities with the GASB Statement No. 84 requirements.

The GASB issued Statement No. 87 *Leases*, which increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows or outflows of resources based on the payment provisions of the contract. The pronouncement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This pronouncement is effective for fiscal year 2022. The City is beginning to evaluate the effects this will have on the City's financial statements and will implement this pronouncement as part of the 2022 financial statements.

NOTE 1 – BUDGETARY INFORMATION

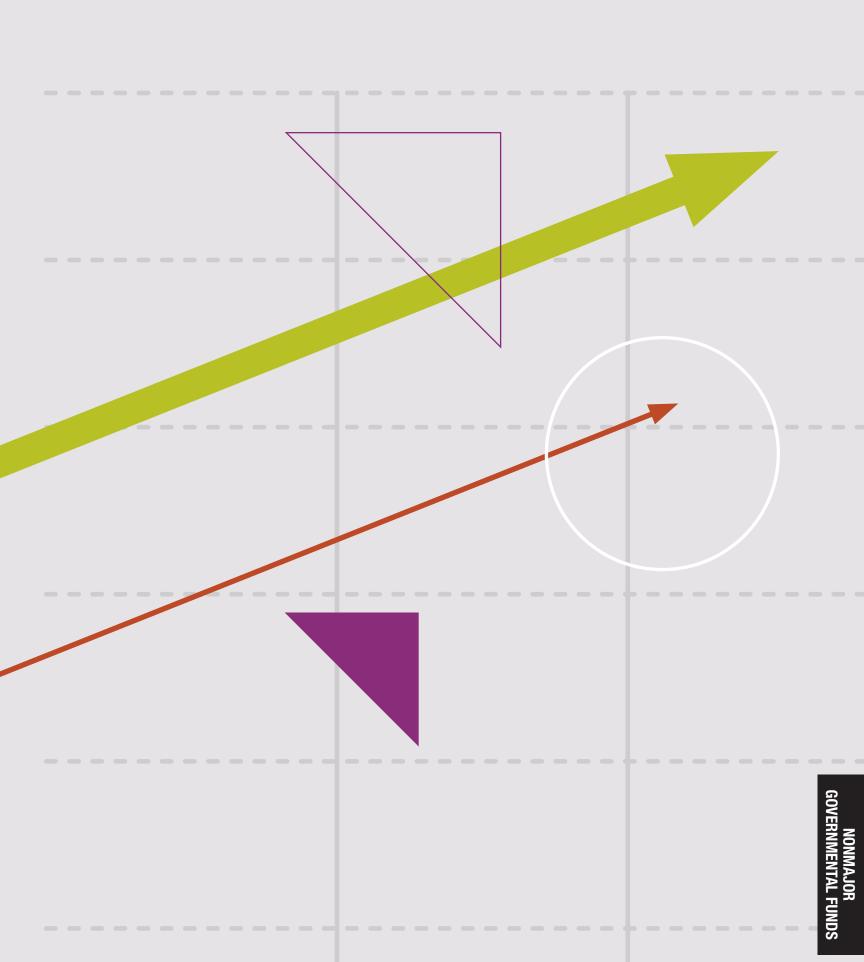

The budgets for the general fund and the urban renewal authority fund are adopted on a basis that is consistent with accounting principles generally accepted in the United States as applied to governments. The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget is the individual fund level.

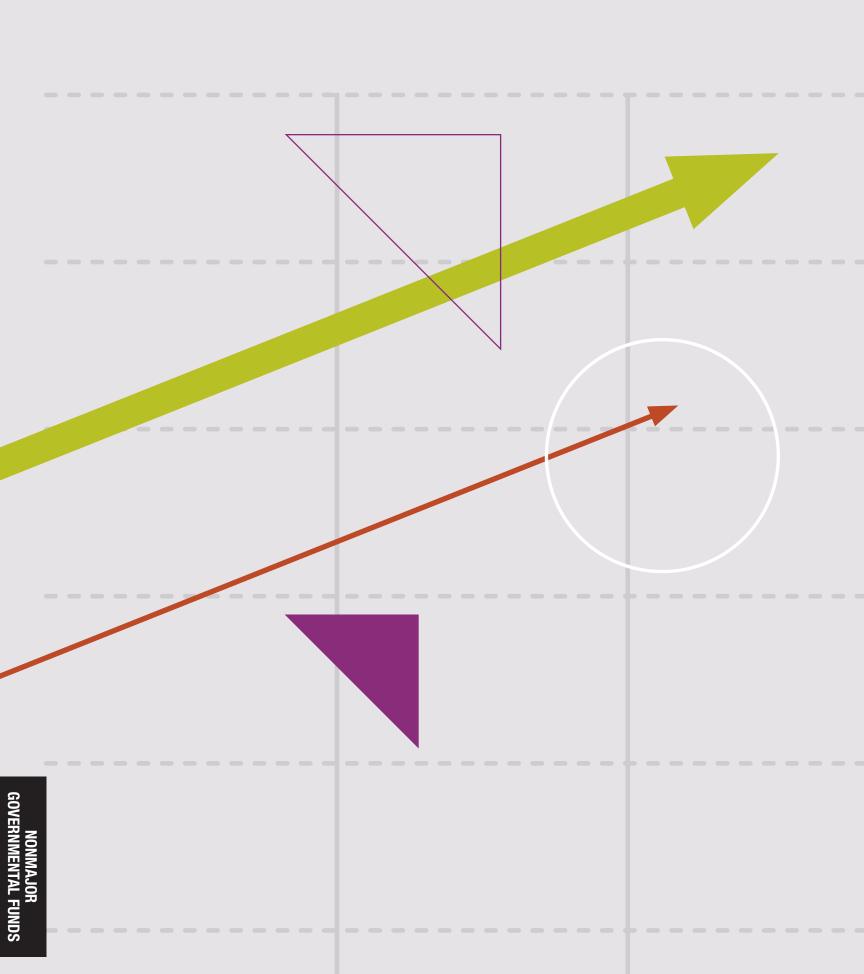

The City Manager is authorized to transfer budgeted amounts between departments within the same fund. Any revisions, which alter total expenditures of any fund, must be approved by the City Council. During the year, the City Council approved supplemental appropriations. All annual appropriations lapse at calendar year end.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General and Urban Renewal Authority Fund. Encumbered appropriations at year-end lapse and generally are re-appropriated in the following year.

CITY OF COMMERCE CITY

THIS PAGE INTENTIONALY LEFT BLANK

City of Commerce City, Colorado Statistical Section (Unaudited)

This part of the City of Commerce City's Comprehensive Annual Financial Report presents detailed information as a context for understanding this year's financial statements, note disclosures, and supplementary information. The financial data for the Commerce City Northern Infrastructure General Improvement District, a blended component unit of the City, has been included in the applicable tables. This information is unaudited.

Financial Trends I-XI These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in a historical perspective. **Revenue Capacity** XII - XVII These tables contain information that may assist the reader in assessing the viability of the City's most significant "own-source" revenue source, sales taxes. However, we have presented some property tax information. XVIII - XXII **Debt Capacity** These tables present information that may assist the reader in analyzing the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. **Demographic and Economic Information** XXIII - XXV These tables present demographic and economic information intended (1) to assist users in understanding the socioeconomic environment within which the City operates and (2) to provide information that facilitates comparisons of financial statement information over time and among cities. **Operating Information** XXVI - XVIII These tables contain service and infrastructure indicators that can inform one's understanding of how the information in the City's financial statements relates to the services the City provides and the activities it performs.

Report for the applicable year.

¹ Accounting standards require that net position be reported in three components in the financial statements: net investment in capital assets, restricted; and unrestricted. Net position are considered restricted only when (1) an external party, such as the State of Colorado or the federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the City. There are no restrictions currently reported as a result of enabling legislation.

Notes:													

¹ Tax rates presented in per \$1,000 assessed value.

Data Source: Adams County Tax Assessor's Office.

² Assessed values are 7.15% of actual value for residental property, 87.5% for gas and oil and 29% for all other property classes. The City's mill levy is 3.280, however the City applies a temporary mill levy credit in some years, when needed to comply with Tax Payer's Bill of Rights (TABOR) requirements.

Notes:

Data Source:

Applicable years' comprehensive annual financial report.

¹ The amounts reported in this table exclude the GID taxes.

² Although property taxes are not the City's major own-source revenue, this table is presented to provide selected data regarding property tax administration. Taxes reported in this column represent the total tax collections in the year indicated, not in the year levied as required by GASB Statement No. 44, since this information is not available and delinquent tax collections generally are insignificant.
